## Report description

The **Partnering Agreements with Allergan 2010** provides an in-depth insight into the partnering interests and activities of one of the world's leading biopharma companies.

This report provides all the information you require to better understand **Allergan** and its partnering interests and activities over the past five years.

One of the key aspects of partnering is finding those companies that are potential partners for the development and commercialization of the next generation of therapies as developed by innovative biopharma R&D companies. A lot of resources are spent on finding partners, identifying their interests and making contact to initiate discussions.

Using this report, dealmakers will effectively and efficiently determine the suitability of **Allergan** as a prospective partner, their business development objectives, interests and recent partnering activity, key partnering contacts, and partnering contract documents signed with their recent partners.

The report provides a firm basis for initial due diligence into **Allergan** as a prospective partner company.

The initial chapters of this report provide an orientation of biopharma's dealmaking and business activities.

Chapter 1 provides an introduction to the report, whilst chapter 2 lists the top 50 leading biopharma companies based on 2008 pharmaceutical revenues. Chapter 3 analyses the most active dealmakers between 2005 and 2009 in M&A and partnering deals announced, whilst chapter 4 identifies the top deals of 2005 to 2009 according to reported deal size.

Chapter 5 provides details on how to approach biopharma companies with partnering opportunities whilst chapter 6 lists forthcoming partnering events and conferences where biopharma companies will be present to discuss opportunities face to face.

Chapter 7 provides a series of matrices that summarize the company's activity in terms of marketed and pipeline products, partnering interests and partnering activity by therapeutic area.

The main body of the report is provided in chapter 8. An in-depth profile of the company provides everything required to assess the suitability of a company as a prospective partner. This includes a company overview, detailed analysis of the company's marketed and pipeline disease targets, partnering interests, partnering activity according to deal type, phase of development, therapy area. The profile also includes in-depth contact information for individuals within the business development function.

The company profile is also provided with a comprehensive listing of contract documents available in the public domain. The listing is sorted by deal type – therefore co-promotion deals are listed separately to licensing, M&A and supply deals, and so on.

Each deal title links via Weblink to an online version of the actual contract document, providing easy access to each contract document on demand.

**In summary, the report provides the user with the tools to make successful contact with the right biopharma partners effectively and efficiently.**
